WEBSITE ADMINISTRATION

# Staff guide to updating the website

Events, photographs, announcements and your password — without touching any code.

Jesus Power School of Ministry & Retreat Center · jesuspowersmrc.org

OVERVIEW

# What you can update

The panel is deliberately small. If it is not on this page, it needs a developer.

### Events

Add, edit or remove dates and intake information.

### Photographs

Upload pictures and caption them in the Gallery.

### Announcements

A short notice strip on the home page.

### Your password

Change it yourself at any time.

**Two rules that save everyone time**

1. Only publish information that has been approved by the ministry office.
2. Always sign out on a shared computer.

STEP 1

# Signing in

https://jesuspowersmrc.org/admin/

**jesuspowersmrc.org/admin**

1. **Open the address above**

   Use any browser — phone, tablet or computer.

2. **Enter your username and password**

   Both are given to you by the office manager.

3. **Click “Sign in”**

   You will land on the Dashboard.

*Always check the address starts with https:// and the padlock is showing.*

**First time?**

Change your password straight away: Account → Change your password.

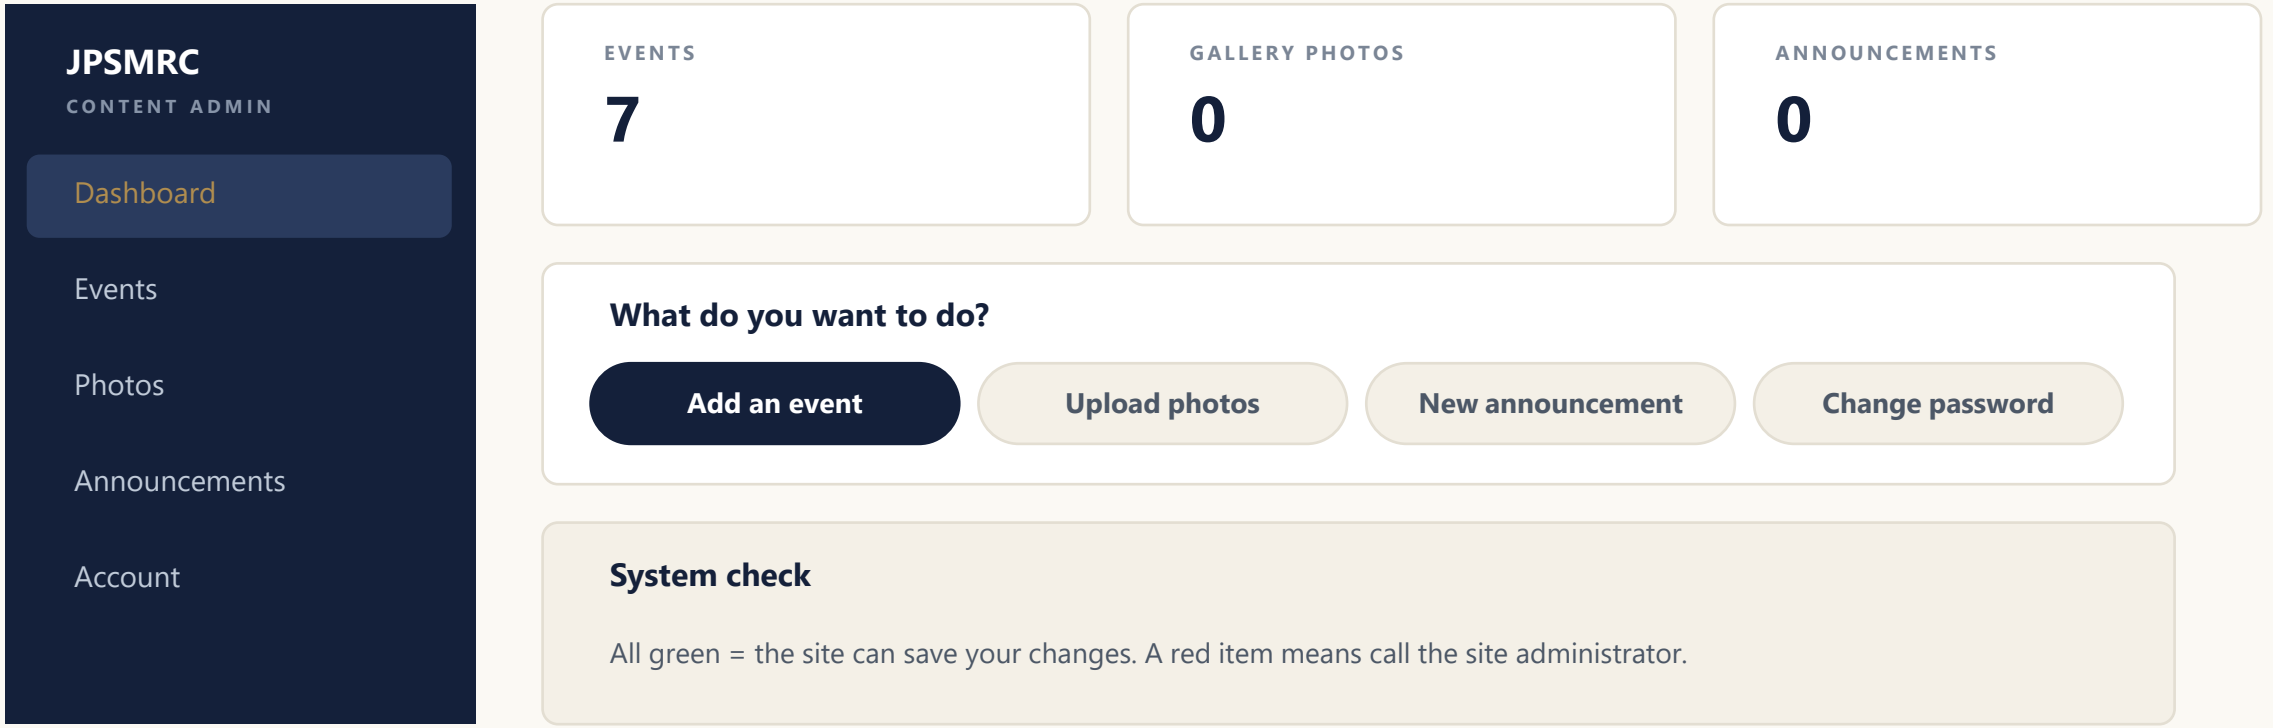

Do not keep the temporary password that was given to you.

**Security note**

Five wrong passwords locks sign-in for 15 minutes. That is normal — wait, then try again.

STEP 2

# The dashboard

The sidebar is always there. Tap an item to switch section.

# Add an event

1. **Events → “Add event”**

   In the left sidebar.

2. **Type the title**

   Required. This is the heading visitors see.

3. **Pick a date — or skip it**

   No date? Put a label such as “Community outreach”.

4. **Add a short description**

   One or two sentences is plenty.

5. **Attach a photograph (optional)**

   JPEG, PNG or WebP, up to 8 MB.

6. **Tick “Published” → Save event**

   Untick it to keep a draft.

### Where it appears

- Straight away on the Events page
- The three newest on the home page
- No waiting, no republishing

### Editing or deleting

The Events list has Edit and Delete next to every row. Deleting asks for confirmation.

EVENTS

# Event form — what each field does

| Field | What to put there |
|---|---|
| **Title** | Required. The heading on the event card. |
| **Date** | Optional. Use the calendar picker. |
| **Date label** | Shown instead of a date, e.g. “Community outreach”. |
| **Category** | School · Milestone · Outreach · Conference · General. |
| **Description** | One or two sentences — about 200 characters. |
| **Photograph** | Optional. Replacing it deletes the old file. |
| **Published** | Tick to show it. Untick to keep it as a draft. |
| **Featured** | Highlights the event on the home page. |

*Tip: leave the photo empty and the card still looks correct — it uses a plain colour block.*

PHOTOS

# Upload photographs

1. **Photos → choose Images**

   You can select several files at once.

2. **Add a caption (optional)**

   e.g. “Graduation 2026”.

3. **Choose a category**

   This controls the Gallery filters.

4. **Click Upload**

   Large photos are resized automatically.

### Categories

General · Exterior · Interior · Nature · Events · School of Ministry · Celebrations

### File rules

- JPEG, PNG or WebP only
- Maximum 8 MB per photo
- At least 200 × 200 pixels
- HEIC from an iPhone must be converted to JPEG first

Uploaded photos appear at the end of the Gallery. Use the matching filter to view them.

PHOTOS

# Editing and removing photographs

### Under every photo you will find

- Caption — correct a typo or add a name
- Category — move it between Gallery filters
- Visible — untick to hide it without deleting
- Save — applies the caption and category
- Delete photo — removes the picture for good

### Deleting is permanent

Deleting a photo removes the file from the website immediately. There is no recycle bin.

If you are unsure, untick "Visible" instead — that hides it and you can bring it back later.

*Ask before publishing photographs of children or of anyone who has not agreed to appear on the website.*

# Announcements

1. **Announcements → the form**

   At the top of the page.

2. **Add a short title**

   For example “September intake now open”.

3. **Write one or two lines**

   It is a strip, not an article.

4. **Tick “Show on the home page” → Save**

   It appears near the top of the home page.

### Only one at a time

Tick a new announcement and the previous one switches off automatically.

### To remove it

Open it, untick “Show on the home page” and save. Or delete it entirely.

ACCOUNT

# Change your password

1. **Click Account in the sidebar**

   Bottom of the menu.

2. **Type your current password**

   The one you used to sign in.

3. **Type the new password twice**

   At least 10 characters.

4. **Click “Update password”**

   You stay signed in.

### Make it strong and memorable

- At least 10 characters
- Not used on another website
- Three or four unrelated words

  make a good passphrase

Never send your password in a group chat, and never write it on the office noticeboard.

HELP

# If something goes wrong

| What you see | What to do |
|---|---|
| **“Incorrect username or password”** | Check capital letters and spacing. After five tries, wait 15 minutes. |
| **You have forgotten the password** | There is no self-service reset — contact the site administrator. |
| **“Images must be smaller than 8 MB”** | Send a smaller copy, or crop the photo first. |
| **“Only JPEG, PNG and WebP”** | Convert the file. iPhone HEIC photos must be exported as JPEG. |
| **A change is not showing** | Refresh with Ctrl + F5. Check “Published” is ticked. |
| **The page looks broken** | Refresh. If it is still broken, send a screenshot to the administrator. |
